To
Mr. Ayaan Syed Imam
Grade XII, The Heritage School

Subject: Acknowledgement of Innovative Contributions and Donation of Assistive Technology Projects for the Welfare of Specially-Abled Individuals

Dear Ayaan,
On behalf of the **Academy of Skill Development (ASD)**, a non-profit organization committed to skill development, inclusion, and social empowerment, we are pleased to formally acknowledge and appreciate your innovative contributions towards improving the lives of specially-abled individuals.
We sincerely appreciate your initiative in conceptualizing and developing technology-driven solutions that address the challenges faced by persons with disabilities and promote their social and economic inclusion.
We are particularly pleased to acknowledge the following initiatives:

1. Translator App for Specially-Abled Individuals
We recognize your Translator App as a promising assistive technology initiative with the potential to facilitate communication and improve accessibility for specially-abled individuals. We appreciate your efforts in conceptualizing this application and encourage further development of the idea to enhance its practical utility and reach.

2. Employment Aggregator Web Platform
We also acknowledge your initiative to develop an employment aggregator platform designed to connect specially-abled individuals with suitable employment opportunities. The proposed platform aims to onboard our organization and external business partners, enabling businesses to post job opportunities tailored to individuals with diverse abilities and skill sets.
These opportunities may include administrative and back-office responsibilities, as well as operational tasks such as cutting, sorting, and other suitable activities. The platform is envisioned as a centralized system for matching candidates with relevant employment opportunities based on their skills, capabilities, and individual requirements.

We are pleased to acknowledge your **generous decision to donate these innovative initiatives and associated project work to the Academy of Skill Development** for the benefit of specially-abled individuals and the furtherance of our social welfare objectives.

ASD values your compassion, creativity, and commitment to using technology for social good. We believe that initiatives such as these can contribute meaningfully towards building a more inclusive society by improving accessibility, communication, and employment opportunities for persons with disabilities.
We extend our sincere appreciation to you for this thoughtful contribution and wish you continued success in your academic pursuits and future endeavors.

Best wishes,

Mahendra Datta
